

**The latest in shredder
technology from
Granutech-Saturn Systems:**

THIS REALLY BITES!

GRANUTECH
SATURN
SYSTEMS

Once you get past all the hype, don't you really just want

Size Reduction Made Simple?

Effective reduction in
PLASTICS?

We wrote the
book on it.

Thin Film

Fiber

PIPE

Rigid Scrap

Sheet

CAST

Turnings

Film & Foil

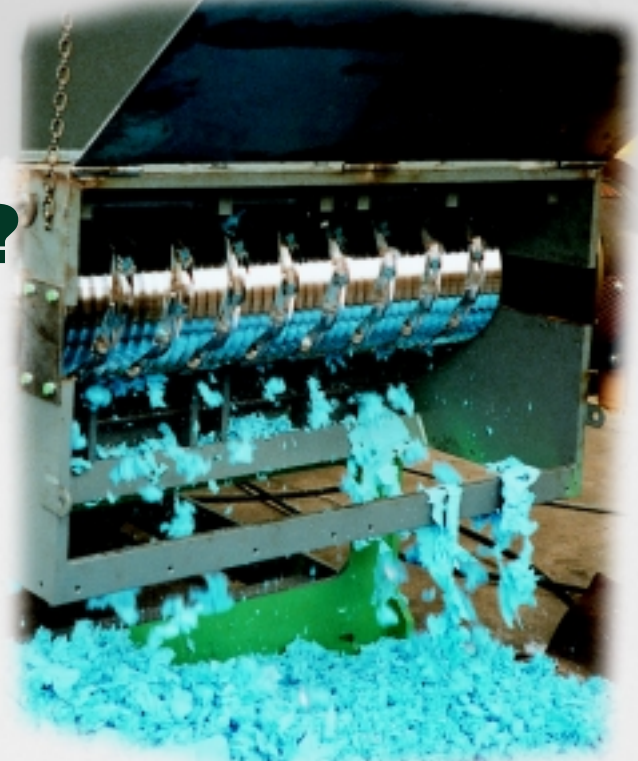

Processing scrap
ALUMINUM?

It's practically
our middle name!

OTHER APPLICATIONS?

We're as versatile as we are powerful
with solutions in:

**CARPET
MEDICAL WASTE
PRODUCT DESTRUCTION
PALLETS
DOCUMENT DESTRUCTION
and more.**

Check out what Roto-Grind has to offer:

- **Electric or hydraulic drive from 20 hp to 400 hp**
- **Cutter options — size, shape, quantity, material**
- **Stationary cutter with multiple edges**
- **Optional bolt-in blade holders**
- **High torque and high production in the same unit**
- **"Intelli-Ram" technology**
- **Choice of smooth or grooved rotor**
- **Fast, expert, high-quality service**
- **Reliability and low maintenance**

It might already be in stock

We make it all happen

We've got it and it's adjustable

Just ask

We build it into every Roto-Grind

Automated feeding — and it's standard equipment

Take your pick, we have both

That's the only kind we know

You deserve it — we provide it.

ROTO-GRIND At a Glance

Model	Chamber Size (in.)	Rotor Diameter (in.)	Typical Power (hp)
M 50	20 X 21.5	10.5	20
M 70	32.5 X 39	10.5	50
M 80	32.5 X 39	14.5	75
M 110	54 X 80	14.5	100
M 160	63.5 X 80	20	150
M 200	84.5 X 100	20	200
M 240	95 X 100	20	300
MX 300	105.5 X 100	30	400

Granutech-Saturn Systems: The Whole Story

Granutech-Saturn Systems Corporation, offering equipment and peripherals under the Granutech, Saturn Shredders and MAC names, is one of the world's largest manufacturers of equipment and systems for size reduction and material recycling. Since 1965, the Grand Prairie, Texas-based company has demonstrated an unwavering commitment to quality equipment and world-class service for the various industries it serves, both in the U.S. and abroad. Shown here are Granutech-Saturn Systems' primary product lines.

MAC
CORPORATION

Automobile recyclers and other ferrous/non-ferrous recycling operations have long relied upon MAC flatteners and balers for solid performance and minimal downtime. A full range of product offerings is available from

the industry standard "Big MAC" flattener, to modified flattener designs for specialized processing demands.

SATURN
SHREDDERS

Saturn Shredders have been providing quality solutions to shredding problems for more than two decades. Today Saturn offers the broadest range of choices possible for use in a wide range of applications and industries. Available in sizes from 50 hp to over 1000 hp, Saturn Shredders combine the latest in design and manufacturing technology. The result is equipment that provides unmatched throughputs with a measurable reduction in both downtime and maintenance costs.

When size reduction needs call for secondary processing, one-step reduction and sizing or granulation and powderization, Granutech-Saturn Systems Corporation leads the way with solid, effective solutions.

Equipment offered by Granutech-Saturn Systems includes: the Grizzly processor (shown at right); Roto-Grind single rotor shred/sizing units (shown at left); and the Granutech G-3 granulator, (not shown) which, with available options, can produce material as fine as 80-mesh. All Granutech-Saturn Systems equipment is offered in a variety of models and sizes to suit your processing needs.
